

Laboratory Report

Liver & Kidney Function – Medpark Labs

Shadia Osman Abdalgafar Elsaim

22 Dec 2023

Abnormal – Requiring Attention (1)

Test	Result	Reference	Status	Clinical Significance
Cholesterol	295 mg/dL	<200	HIGH	Significantly elevated. Desirable <200, Borderline 200-239, High >=240. Likely related to immobility and diet. Statin consideration if persistent.

Normal – Reassuring (8)

Test	Result	Comment
AST (GOT)	14 U/L	Normal liver enzyme.
ALT (GPT)	17 U/L	Normal liver enzyme.
Bilirubin Total	0.2 mg/dL	Normal
Bilirubin Direct	0.12 mg/dL	Normal
Bilirubin Indirect	0.1 mg/dL	Normal
Urea	25 mg/dL	Normal kidney function.
Creatinine	0.6 mg/dL	At lower end of normal – consistent with sarcopenia pattern.
Uric Acid	2.9 mg/dL	Normal

Notes

Liver and kidney function tests. Notable: Cholesterol 295 mg/dL (HIGH).
